TECHNICAL DATA SHEET

H-350
Polyether modified silicone

CAS:67674-67-3

DESCRIPTION

H-350 is a modified trisiloxane, is an organic silicone surfactant with super ability of spreading. It is a non-ion surfactant has the structure of type "T", which is extremely effective for improving efficacy, reducing amount of pesticide, saving cost, reducing environmental pollution caused by pesticides.

TYPICAL PROPERTIES

Appearance	Colourless to light amber liquid
Active content %	100%
Composition	Silicone Polyether
Viscosity (cst)	20-45
Surface Tension (0.1%)	<20.5mN/m
Density	1.02g/cm ³
Cloud point	<10

USES AND APPLICATION

Ultra-low surface tension and can improve the wetting of a variety of substrates and pigments

Application system: water-based, solvent-based and solvent-free systems

Dosage: 0.2-1.5% of the total recommended dosage

SAFETY

Before handling, read the Material Safety Data Sheet and container label for safe use, physical and health hazard information.

STORAGE AND SHELF LIFE

After sealing packaging products stored in a cool, dry place, **H-350** has a shelf life of 36 months from date of manufacture.

PACKAGING

H-350 is available in 200L drum and 1000L IBC or others.

LEGAL DISCLAIMER

Hito chemical believes that the information in this technical data sheet is an accurate description of the typical uses of the product. Hito Chemical , however, disclaims any liability for incidental or consequential damages, which may result from the use of the product that are beyond its control. Therefore, it is the user's responsibility to thoroughly test the product in their particular application to determine its performance, efficacy and safety.
